Experience

Software Engineer | 02/2020 - Present | Fitts UK Ltd | Nairobi, Nairobi

- Lead backend engineer - responsible for designing, developing, and maintaining backend code and infrastructure
- Collaborated on all stages of the product development lifecycle; from requirements gathering to production releases
- Collaborated with project managers to select ambitious, yet realistic product development milestones
- Being a certified Microsoft Azure Developer Associate, I was able to leverage the benefits of cloud architecture to create cloud native solutions that scale with ease. I also designed reusable and reliable code for such environments
- Designed customized solutions for proposals to potential customers.
- Documented technical workflows and knowledge to educate newly hired employees
- Directed and mentored software development interns successfully translating to a 100% absorption rate into the organization

Junior Software Engineer | 09/2018 - 12/2019 | Andela | Nairobi, Nairobi

- Shadowed team members to learn new tasks and how to appropriately handle technical issues.
- Worked with developers to identify and remove software bugs.
- Delivered project reports and milestone updates to leads.
- Partnered with team members to learn best practices in software design.
- Wrote clear, clean, and well-tested code for various projects.
- Analyzed source code to identify functionality issues.

Skills

TypeScript, C#, ReactJS, Azure, SQL

Education

B.Eng, Mechanical Engineering | The Technical University of Kenya | 03/2022 | Nairobi, Nairobi

Software Development Bootcamp | Andela | 02/2019 | Nairobi, Nairobi
